Product Sourcing, Trading & Services

VICCS your "One Stop Shop" for commodities is committed to professional, prompt, reliable and honest service in the supply of commodities to the global marketplace.

We offer many valuable products related to several industries and we team with a wide-array of suppliers & manufacturers in the U.S. and overseas dedicated to support U.S. Government Agencies & Departments. VICCS's primary focus consists of the United States Government, all of its branches, departments, and agencies, as well as all U.S. Federal Government prime and subcontractors.

We are committed to the growth and development of global trade and fair sourcing of commodities with strict adherence to international trade laws.

Our knowledge of a country's supply and demand trends, government trade regulations and requirements, ocean freight, and import/export documentation can be a valuable asset in completing trade or providing consultation to facilitate completion of capital investments. With our quality programs, IT infrastructure, state-of-the-art databases, ESD compliant warehouses, and solid relationships with the world's largest OEMs and CMs, VICCS will meet your most demanding product requirements on a consistent basis.

Our unique delivery model, combined with our extensive infrastructure, gives us the agility and flexibility to rapidly deploy commodities anywhere in the world.
