

VICCS
- Presents -

“Content Managed Enabled ERP” Technology Seminar

**Virtualize, Collaborate, Share, & Integrate Imaged Content
with ERP**

Program Highlights:

- Virtualized ERP & Content Management
- Content managed enabled ERP combines the use of a Content Management or Imaging systems with an ERP system so that Customer and/or Corporate data can be retrieved directly from the ERP without switching applications.
- This process improves overall efficiency by linking various data in the ERP to actual documents and content.
- Improves Business processes and associated costs to delivering superior service, and providing CRM with a proven method to deliver superior services.
